

Caught Up

Anthony Russo

Ou ay
Ou ay
Where you been at these days
We gotta catch up

When can we meet cause baby I've be trying
You on the move let's move to find some time too
You know I love the view from right behind you
But I can't wait to get caught up with you
I'ma keep running till I'm all the way caught up with you
I'ma keep chasing till I'm all the way caught up with you
There ain't no waiting till I'm all the way caught up with you
I can't stay patient till I'm all the way caught up with you

Let's do this face to face
I need to see your body
You pick the time and place
And that's the place where I'll be
And if I'm running late
Well here is an early sorry
Just know I come with flowers
Remedies for all your problems
You know I'm well prepared
You know I'm well aware
I don't see you often
Forgive me if I stare
They say if you set love free if it comes back it's meant to be
Well this the greatest comeback hollywood has ever seen

When can we meet cause baby I've be trying
You on the move let's move to find some time too
You know I love the view from right behind you
But I can't wait to get caught up with you
I'ma keep running till I'm all the way caught up with you
I'ma keep chasing till I'm all the way caught up with you
There ain't no waiting till I'm all the way caught up with you
I can't stay patient till I'm all the way caught up with you

Cacoon of butterflies
I swallowed a batch
You make my stomach turn
And then we watch them hatch
Is this real right now
It's very hard to say
Lost in a sea of thought
And think you got a wave
I say we ride this out
Just grab my hand lets hit the road now
And I'll push you to stay before I ever u go now
Come back to my place so I can get you alone now
The city so foreign but I fuck like it's my hometown

When can we meet cause baby I've be trying
You on the move let's move to find some time too
You know I love the view from right behind you
But I can't wait to get caught up with you

When can we meet cause baby I've be trying
You on the move let's move to find some time too
You know I love the view from right behind you
But I can't wait to get caught up with you
I'ma keep running till I'm all the way caught up with you
I'ma keep chasing till I'm all the way caught up with you
There ain't no waiting till I'm all the way caught up with you
I can't stay patient till I'm all the way caught up with you
