

Changed Me

Anthony Russo

I know this might sound crazy (yeah)
I been thinking a lot 'bout you lately (oh yeah)
I'm not tryna sound basic (no no)
But I think you'd be proud of the man that you made me
I don't want your forgiveness
I just want you to know that you changed me

And my reflection
But every journey starts with acceptance
Wish I could surprise you with flowers
And say let's do it all again
But you're down to your last parachute
I won't let you fall again
The best thing you did was saying goodbye
Yeah I fucked up I was not a good guy
I played the victim and made it unfair
You couldn't ever do anything right
And that's when you left
It all went to shit
I cannot blame you for having to dip
Just know that I learned from the things that I did
And if you need a friend you know where I live

I know this might sound crazy (yeah)
I been thinking a lot 'bout you lately (oh yeah)
I'm not tryna sound basic (no no)
But I think you'd be proud of the man that you made me
I don't want your forgiveness
I just want you to know that you changed me

Changed me, changed me
Ooh, you changed me, changed me, changed me
I don't want your forgiveness
Baby just listen
I want you to know that you changed me
You changed me

I swear that this success closure
Made me and my new girl closer
Still a chain smoker
Hits like I wrote 'em backseat of your Rover
Life's lit know you heard I'm living better than your prospects
I been making progress
Relationships sank, built a better boat
Bailing out the others learnin' in the process
Know they talking 'bout me sayin', "Have you heard?!" (have you heard)
"Heard the whole world hangin' onto every word" (every word)
Takes a little time to finally learn to shine
But I'm finding we all get what we deserve
So I hope you got it
Mean I hope you're happy these days
You deserve that
Honestly I hope you're doing great
If I see you 'round the way I hope we on the same page
Small town boy I was small town noise
Now his flights paid for cause I do what I enjoy
Everything we go through make us everything we are

Hope I left more love than I ever left scars
But it's hard cause the scars left always caused more
Hope you find somebody with a smile and a cure
Open arms, open doors, hope you're making life yours
Changed mine for the better, hope you took the same course

I know this might sound crazy (yeah)
I been thinking a lot 'bout you lately (oh yeah)
I'm not tryna sound basic (no no)
But I think you'd be proud of the man that you made me
I don't want your forgiveness
I just want you to know that you changed me

Changed me, changed me
Ooh, you changed me, changed me, changed me
I don't want your forgiveness
Baby just listen
I want you to know that you changed me
You changed me
