

# Dispatch Man

Anthony Russo

I can't imagine where we'd be without  
All the distractions, oh no  
You know we're magic, so maybe love will come  
If we quit asking, and let it happen

I'll be around, round, round  
I'll be around, round, round  
I'll be around, round, round  
I can be your dispatch man  
Let me be your dispatch man

I know just what to say  
And you love the way I say it  
So how 'bout I come and say it  
To ya, to ya  
I know just what to say  
And you love the way I say it  
So how 'bout I come and say it  
To ya, to ya

You hate to see it, yeah, friends who never said  
What they were thinking (then I said it) so they said nothing at all  
Yeah, I was pulling up when you were going, opened up when you were closing  
The door, not anymore

I'll be around, round, round  
I'll be around, round, round (you know I'm around)  
I'll be around, round, round  
I can be your dispatch man  
Let me be your dispatch man

I know just what to say  
And you love the way I say it  
So how 'bout I come and say it  
To ya, to ya  
I know just what to say  
And you love the way I say it  
So how 'bout I come and say it  
To ya, to ya

How 'bout I come and say  
It's time we wake and give into this love  
How 'bout I come and say it to ya  
To ya
