

Empty Your Mind

Anthony Russo

Just close your eyes
You know where you're going
Beautiful lines
Show me the way
Oh, yeah

Silhouette in the doorway
Intuition with the foreplay
Locked in to the moment
I keep my focus on you
Would you let me through

Empty your mind inside this room
Say that you want me babe
Say that you want me babe
Only your heart knows what to do
Say that you want me babe
You know I want you babe
Want you to stay

I'm looking for it every time you're not around me
I need you like I need to know
Every time you're getting close
Keeping you on your toes
Keeping you wanting more, more

Silhouette in the doorway
Intuition with the foreplay
Locked in to the moment
I keep my focus on you
Would you let me through

Empty your mind inside this room
Say that you want me babe
Say that you want me babe
Only your heart knows what to do
Say that you want me babe
You know I want you babe
Want you to stay

(I want you to stay)
(Oh, yeah)
