

I Jusswon

Anthony Russo

Girl I got nothing to lose
It's either you or I go home
You made it easy to choose
Been waiting for you for so long
Especially when you drive it on the floor
I can hold you down, just let me know
I just need to see a little more
So don't hide it, don't hide it

Something 'bout the way that you move so sexy
Hands up on your waist in the two door flexin'
I do it if it feels right, baby girl, it feels like
Baby girl, it feels like
I just won, I just won
I just won, I just won
I just won, I just won
I do it if it feels right, baby girl, I got nothing to lose

You know me better than most people
So, I'ma hold on to you now, na-na
And just let go of my ego
So tell me if you need a little more
I can hold you down, just let me know
Baby, all I wanna do is show you
So don't hide it, don't hide it

Something 'bout the way that you move so sexy
Hands up on your waist in the two door flexin'
I do it if it feels right, baby girl, it feels like
Baby girl, it feels like
I just won, I just won
I just won, I just won
I just won, I just won
I do it if it feels right, baby girl, it feels like
I just won, I just won
I just won, I just won
I just won, I just won
I do it if it feels right, baby girl, it feels like
Something 'bout the way that you move so sexy
Hands up on your waist in the two door flexin'
I do it if it feels right, baby girl, it feels like
Baby girl, it feels like
Baby girl, it feels like
