

Loose Lips

Anthony Russo

It started on the weekend
It ended by the weekend
And I need to know
Can you, keep a secret

Off, off, and away we go
I already know what you came here for
I don't need a background story or a mix
I knew the outcome as soon as you came in
Look, you needed assurance and I needed love
Every couple weeks, that's all that it was
Never talk real, just SnapChat buds
They got rid of the [?] keep that hush

Cause you don't want drama, I don't want stress
We don't want labels, we don't want a mess
Words spread fast, thank your group text
Think it's best that we hold our breath

Can you keep a secret
Choose not to speak it
Tongues tied
Between mine
Loose lips
Sunked ships
Baby, are you down to ride
Are you down to ride

I need to know, can you
I need to know, need to know, need to know
I need to know, can you
Look you ain't gotta it goin'
Say somethin', say somethin'
They got something to tell let's stay away from him
I'll be in the city like a hour from now
And you got sorority prep you gotta worry about
Let's just keep it in check
Not explain something that don't even exist
They want the details we just want bliss
Put lap on your lips with that goodbye kiss
In the morning you'll be gone
And you'll turn into a song
I won't even put my number in your phone
iCloud's filling up I'll save your room

Cause you don't want drama, I don't want stress
We don't want labels, we don't want a mess
Words spread fast, thank your group text
Think it's best that we hold our breath

Can you keep a secret
Choose not to speak it
Tongues tied
Between mine
Loose lips
Sunked ships
Baby, are you down to ride

Are you down to ride

I need to know, can you
(Can you, keep a secret)
I need to know, need to know, need to know
(Can you, keep a secret)
I need to know, can you
(Can you, keep a secret)

Can you keep a secret
Choose not to speak it
Tongues tied
Between mine
Loose lips
Sunked ships
Baby, are you down to ride
Are you down to ride

Chase it, feel it, taste it
It's Friday night and you're wasted
This Uber is here, should we take it
Passion, commitment
The moment, we live it
It's over, you leave
Tomorrow, forget it
