

# Overnight Shift

Anthony Russo

Ou aye  
Ou aye

I say that phone goes on DND  
Let's put on some PND  
Slip out of that dress for me  
Kiss all on my neck me for me  
Yeah u know was best for me  
I ain't gotta lie at all  
You know I'm down to try it all  
On my

Overnight shift  
Run it, run it, run it, run it, run it  
On that overnight shift  
Run it, run it, run it, run it, run it  
Ya I know exactly what you want  
(I think I know)  
All this work for just a little love  
Dammit I can't lie it feels so good  
I don't shut myself down even though I should

Hush and let daddy lay the mack down  
Swear this girl was TSA she giving me pat downs  
Got my favorite record justa spinnin' in the background  
Play some Luther  
Drain out all the sad sounds  
Spin it till the needle break  
Trust me I don't a break  
I think I need some faith  
I think I'm losing my way  
Ya I'm still pretty faded from the first time  
I'm not tryna take to much of your time  
I just need a baddy for the nightshift  
Ya you could make it home before the night ends  
Like sheesh  
Why you gotta haunt me in my dreams?  
Why you gotta leave with no peace?  
No there's no peace  
Not in these sheets  
No, no, no

On that overnight shift  
Run it, run it, run it, run it, run it  
(Let it flood, let it flood)  
On that overnight shift  
Run it, run it, run it, run it, run it  
Proolly' cause I know exactly what you want  
All this work for just a little love (I'm so gone)  
Dammit I can't lie it feels so good (so good)  
I don't shut myself down even though I should

I'm on that overnight shift  
Work myself to death  
On that overnight shift  
When will it end
