

Stop And Pray

Anthony Russo

Know we don't chill but maybe we could start today
Do you like free cause I could give my heart away
Running on 'E' but we don't plan on stopping babe
Holy, you make me wanna stop and pray
She makes me wanna stop and pray
She makes me wanna stop and pray
She makes me wanna stop and pray

Pardon my grammar
But I'm a fan of
Youa
I thank my lucky stars for shining through you
We could be fire
We could be bliss
I could be mister
And you could be miss
And you won't miss being miss
I promise you this
I promise you trust
If the question is love
I promise all the above
I know college is tough
I know that the timing is off
I know Thursdays go hard
I'm out climbing the charts

But, I'm down to make some time if you will
Feeling changed all the time but if you still
I've been praying that someday you come my way again
Until that moment I'm guess have to say again
But, I'm down to make some time if you will
Feeling changed all the time but if you still
I've been praying that someday you come my way again
Until that moment I'm guess have to say again

Know we don't chill but maybe we could start today
Do you like free cause I could give my heart away
Running on 'E' and I don't plan on stopping babe
Holy, you make me wanna stop and pray

Pardon my nerves
Pardon my verse
It's partly insurance
I'm part of a purpose
Trust me I've heard it
Nobody's perfect
Nobody's asking
Messes our welcomes here
No need for napkins
Your eyes tell it all, no need for captions
I don't commit, so it hurt when it doesn't work
It doesn't work, cause I don't commit and you think I learned
On both side I just can't help myself
When she's with me and with somebody else

But, I'm down to make some time if you will
Feeling changed all the time but if you still

I've been praying that someday you come my way again
Until that moment I'm guess have to say again
But, I'm down to make some time if you will
Feeling changed all the time but if you still
I've been praying that someday you come my way again
Until that moment I'm guess have to say again

Know we don't chill but maybe we could start today
Do you like free cause I could give my heart away
Running on 'E' and I don't plan on stopping babe
Holy, you make me wanna stop and pray
Know we don't chill but maybe we could start today
Do you like free cause I could give my heart away
Running on 'E' and I don't plan on stopping babe
Holy, you make me wanna stop and pray
