Anthony Russo

Tangerine  
Mami please  
Don't ever take yo hands off of me  
Caramel  
Butter cream  
That's your skin on my skin  
I'm at ease

California  
Born and raised  
But you feel like Chicago in the summer babe  
Down to earth  
Here to stay  
Baby take my hand

We can fire up some purple haze and slip away  
I could dive into your water I ain't swimming babe  
If that's what you like  
Oh girl if that's what you like

I got that recipe  
To make you smile  
I need you next to me  
Baby stay a while  
Don't rush (got time to kill)  
This love (Ooo it's so real)  
Ooh yeah we running free  
Nowhere to go  
Let's be a summer breeze  
Blowing coast to coast  
It's just us (got time to kill)  
This love (Ooo it's so real)

Summer with no drama  
Oooh I wanna  
Scoop you in my Honda  
Turn it into a sauna  
Give you the aux  
Pick the genre  
Little brown sug  
Little nirvana  
Rollin' up and I'm rollin' down the windows

Okay now girl I lose my cool  
When I'm around you  
Everything you do  
I can't seem to get you off my mind  
So put ya pretty hands in mine

We can fire up some purple haze and slip away  
I could dive into your water I ain't swimming babe  
If that's what you like  
Oh girl if that's what you like

I got that recipe  
To make you smile  
I need you next to me
