

u & i

Anthony Russo

Day and night
I'm thinking 'bout you day and night
Wondering
If I'm more than just a pocket dial
To you

Blowing smoke in my eyes
Burning holes in the sky
With you
Oh I know you've been fighting most of your life
Baby don't cry over yesterday
We can just dance make it all okay
I know your head is a lot like man
Figuring out what it wants to say
Don't you get tired of the same old jokes
Give me your hand darling we can go
Anywhere that you like
Just you and I

I know it's kinda nice here sitting on the fence
But I could see us out there running like the wind
Couldn't you?

Blowing smoke in my eyes
Burning holes in the sky
With you
Oh I know you've been fighting most of your life
Baby don't cry over yesterday
We can just dance make it all okay
I know your head is a lot like man
Figuring out what it wants to say
Don't you get tired of the same old jokes
Give me your hand darling we can go
Anywhere that you like
Just you and I

Just you and I
