

Undivided

Anthony Russo

Yeah there's nothing better
When we come together
We're just making records
Bring it on, bringing it on
There's a fire raging
And nobody sees it
The entire nation
Sing along, singing along

There's a fever
Hold your breath, hold your breath
Yeah, we're undivided
One of the best, one of the best
There's a fever
Hold your breath, hold your breath
Yeah, we're undivided
One of the best, one of the best
Undivided

I don't speak for me
Speak for the duo
Started making tracks back in Juno, Juno
We're not from here, young Bruno
Flows heavy, going sumo
Chances I need UNO
Kay
Two songs in two days
That, could've gone two ways
Labels like, ok if you say so
Haded to go back to the 'Z' cause I made mo
But it's good to be back
A lot of people said I shouldn't do rap
And I said, "How about we do both?"
Didn't know it sound this dope
I'ma do me from now on
Yo, [?] put the crown on
Hit the colab then we put the town on
Check what we making and put the sound on
This ain't music no more dog
It's a movement
So sit back and listen how we do it

There's a fever
Hold your breath, hold your breath
Yeah, we're undivided
One of the best, one of the best
There's a fever
Hold your breath, hold your breath
Yeah, we're undivided
One of the best, one of the best
Undivided
