Venus

Anthony Smith

They say men and women are worlds apart
With neither one willing to travel that far
But I?ve never bought into psychological stuff
And never claimed to be a bonafied genius
But if men are from Mars and women are from Venus
I?m goin' to Venus

Well, strap me in, ship me out, beam me up Scotty
Take me to the land of those heavenly bodies
Stay here if you want to but just between us
If men are from Mars and women are from Venus
I?m goin' to Venus

Women want a man who ain't afraid to commit
And take 'em out to dinner that?s candle lit
So I?m givin' in to the battle of the sexes
And callin' up ahead to make reservations
'Cause if men are from Mars and women are from Venus
I?m goin' to Venus

If you come by the house and I?m not in
You can call me long, long, long distance
Got better things to do than sit around and talk
'Cause I?m blastin' off of this big red rock

Well, strap me in, ship me out, beam me up Scotty
Take me to the land of those heavenly bodies
Stay here if you want to but just between us
If men are from Mars and women are from Venus
I?m goin' to Venus
