

# Discharge

## Anthrax

I wait, I hate  
Silence kills you like a loaded gun  
My time, you waste  
Resolution turn your back and run  
Drunk with power  
Your ivory tower  
Never stood, never could  
And around and around  
You hit the ground  
Reservation hellbound

Most people cry  
When a person dies  
You wanna know why?

Run it through,  
Discharge!

Most people cry  
Not when you die  
You wanna know why?

Nobody cried  
You lived a lie  
You lived a lie!

Your life, what life?  
What's the difference between you and death?  
Overdose, comatose  
You won't even leave a corpse that's fresh  
Drunk with power  
Go take a shower  
I wish you would, I wish you could  
And around and around  
You hit the ground  
Reservation hellbound  
A surreal vision  
Of a human being

Self inflicted crucifixion  
Suicidal contradiction  
Clusterfucked you load it up  
Clusterfucked you self destruct  
Get off my dick, it's sick  
I refuse to feel sorry for you  
I can't, believe  
People put you on a pedestal  
Drunk with power  
Your ivory tower  
Never stood, never could  
And around and around  
You hit the ground  
Reservation hellbound  
A surreal vision  
Of a human being
