

# In the End

Anthrax

Lone star was dark tonight  
Our diamond shined so bright  
I watched it go  
Farther than he ever dreamed  
I can't take it

No matter how I try  
I can't stop asking why  
'Cause something's broken  
Scared it breaks my heart  
I won't take it, I can't break it

In the end  
I'm pounding on the door  
But it's already over  
Too little, too late

In the end  
He'll be my light in the dark  
When the sun goes down  
When the sun goes down on me

And when my greatest falls  
Heaven and Hell will call  
Stand up and fight  
On and on his memory screams  
I can't take it

Stand up and fight with all  
I won't take it, I can't break it

In the end  
I'm pounding on the door  
But it's already over  
Too little, too late

In the end  
They'll be my light in the dark  
When the sun goes down  
When the sun goes down

In the end  
I'm kicking down the door  
And I'm taking this over  
I'm leaving the slate

In the end  
They'll be my light in the dark  
When the sun goes down  
When the sun goes down on me

Did I thank you for our time together?  
Did I thank you for making me better?  
Did I thank you for being the one I would  
Bleed and kill for?  
Did I thank you for tearing my head off?  
Ripping my heart out

Fucking my world

Do we tell you how much we loved you?  
Do we tell you you made our dreams come true?  
Do we tell you that you were the one?  
Paving our way, the damage is done  
Did we thank you for tearing our heads off?  
Ripping our hearts out  
Fucking our world!

I can't break it down

In the end  
I'm pounding on the door  
But it's already over  
Too little, too late

In the end  
He'll be my light in the dark  
When the sun goes down  
When the sun goes down

In the end  
I'm kicking down the door  
And I'm taking this over  
I'm leaving the slate

In the end  
They'll be my light in the dark  
When the sun goes down  
When the sun goes down on me
