

# The Tree Of Life

Anthropia

As revelation told us  
The apocalypse has begun  
An open portal fills the sky  
Leading to the tree of life  
24 thrones in the sky  
Are paying tribute to the one  
He stands among the seven stars  
A sharp two edged sword out of his mouth  
His eyes ablazed as a flame of fire  
Lighting, thunder, voices rise  
Four beasts full of eyes behind  
A lion, a calf, an eagle and a man  
The breach occurred due to our love  
The new physical element yeah  
Finally able to touch your hand  
I am the alpha and the omega, the first and the last, the  
Beginning and the ending, the one who is, the one who  
Was, the one who is coming, the almighty

Wrapping bliss, this time for real  
Our tangled souls warm up again  
Astral mating so fusionnal  
Hand in hand,  
Like this doomed evening,  
Beyond the gate,  
Leading to the garden of eden  
Snake, tempt us  
Forgive us (god)  
Tree of life  
Feed us now!  
The consensus is now broken  
All the souls gather  
And drift away far away from earth  
Without return, never...  
Like a new eve and adam  
We condemned our race, doomed our children  
Forced to abandon our ground  
Bid farewell to the garden of eden!  
All is lost his word has been spoken  
The eighth day he destroyed all his work
