

Fight Like Hell

Anti-Flag

Who we are, how we trust and love
Where we stay, what we choose, who we fuck
Are we not enough
The walls have ears, your ears have walls
Set up to fail, to take the fall
Are we not enough

Bite your tongue to kill the mundane
Grind your teeth to get through one day
Weather out the storm just to save some time
Fight like hell just to stay alive

Survive the test of time

Woah, woah

The barricades close the street
But open the way
Our only chance is to be free
To participate
Watching culture pattern like the weather
Our words in the wind like a feather
Are we not enough
Are we still not enough

Bite your tongue to kill the mundane
Grind your teeth to get through one day
Weather out the storm just to save some time
Fight like hell just to stay alive

Survive the test of time

Survive the test of time

Woah, woah

Survive the test of time

Woah

Who we are, how we trust and love
Where we stay, what we choose, who we fuck
Are we not enough
