

Sky Is Falling

Anti-Flag

I see my future straight in front of me
A super structure blown to smithereens
It's getting hard to hold to hope these days
I know it's much too late
Blasted lives lay in the debris
Blasted hearts where there once were dreams
Right now it's dark
And this is just the start

I know it's much too late
I know it's much too late
I know it's much too late
In the blink of an eye...
The sky is falling down

Falling down on me
Searching for a way out
But there's no escape
There is no past or future
I fell like I'm gonna drown
When the sky falls down
When the sky falls down
Sky falls down

In disbelief wearin' a lost blank stare
There's no help coming because no one cares
The world just sit by, waiting for us to die...
I know it's much too late
Counter Insurgent or insurgency
Religious, ethnic or sectarian seeds
Manipulation, born out of total greed

The sky is falling down
Falling down on me
Searching for a way out
But there's no scape
There is no past or future
I feel like I'm gonna drown
When the sky falls down

The sky is falling down
Falling down on me
Searching for a way out
But there's no scape
There is no past or future
I feel like I'm gonna drown
When the sky falls down
When the sky falls down
Sky falls down

(Skies fall, skies fall, skies fall, skies...)
I know it's much too late (Skies fall, skies fall, skies fall)
All gone in the blink of an eye (In the blink of an eye)
I know it's much too late (Skies fall, skies fall, skies fall)

I know it's much too late
In the blink of an eye

The sky is falling down
Falling down on me
Searching for a way out
But there's no escape
There's no past or future
I feel like I'm gonna drown
When the sky falls down
When the sky falls down

The sky is falling down
Falling down on me
Searching for a way out
But there's no escape
There's no past or future
I feel like I'm gonna drown
When the sky falls down
When the sky falls down
Sky falls down
