

The Debate Is Over (If You Want It)

Anti-Flag

For the first time in my life I'm truly free
To see the clear cut forest for the poisoned sea
To see the waters occupy the shores of Jersey

And I feel alive

For the first time in my life I'm truly free
To watch the waters persecute in New Orleans

87 days of disregard on a livestream
Fukushima radiate into the deep sea

Don't let 'em tell you this is on your back
The point of contention is how they act
Where you draw the line will set you free

The debate is

For the last time in our lives we'll get to see
Sunsets reflect and shine off of Greenland sheet
There's too much to gain letting things "be as they be"
As the same who sell disease they also sell "green"

So just change the light you buy
Or just change the car you drive
But don't change the make up of their economy

Don't let 'em tell you this is on your back
The point of contention is how they act
Where you draw the line will set you free

Don't let 'em tell you this is on your back
The point of contention is how they act
Where you draw the line will set you free

The debate is...

The debate is over.
