

Let the Country Feed You

Anti-Nowhere League

LET THE COUNTRY FEED YOU!

For fifteen years these suckers feeding
On the country that is bleeding
For England's a boring story
There is no hope, there is no glory!

The dumb go marching on
The dumb go marching on, on, on, on on

Well move around, look at the nation
Yes we have killed our own salvation
The empty heads that really don't care
Go marching forwards, marching nowhere!

The dumb go marching on
The dumb go marching on, on, on, on, on

Three million have the same attraction
We're up in arms in revolution!
Their hands go out for the little presents
This country feeds the stupid peasants!

Let the country feed you,
let the country feed you,
let the country feed YOU!

For fifteen years these suckers feeding
On this country that is bleeding
The jobless bums and single mothers
They stand in line with all the others

The dumb go marching on
The dumb go marching on, on, on, on, on

No time for love, no time for giving
No thought for why they're really living
An education isn't needed
Just sign the form and you've succeeded!

Let the country feed you,
let the country feed you,
let the country feed you
Let the country feed YOU!
