

# Never Drink Alone

Anti-Nowhere League

Sorry mate we don't serve your kind here  
How many drinks can I force down my neck... before I forget who  
I am  
And how many beers must I drink with these queers before I can  
prove I'm a man

Let's have a night of drinking... stop all of your thinking  
Forget about the things to do... let's have another beer or two  
Hey this ones got it's name on you

How many bars I must crawl from the stars before I know I'm sto  
ned  
And how many glasses do raise to the brasses and I walk home al  
l alone

But we will go on drinking as our world goes on sinking  
And we will never drink alone  
Yes we will go on drinking as our world goes on sinking  
Because we will never drink alone

Let's have a night of drinking... stop all of your thinking  
Forget about the things to do... let's have another beer or two  
Hey this ones got it's name on you

How many shants will it take to piss my pants, or fall ina heap  
upon the floor  
And how many fights can I take on tonight... until I can't figh  
t any more

Let's have a night of drinking... stop all of your thinking  
Forget about the things to do... let's have another beer or two  
Hey this ones got it's name on you

But we will go on drinking as our world goes on sinking  
And we will never drink alone  
Yes we will go on drinking as our world goes on sinking  
Because we will never drink alone

So I will go on drinking as my world goes sinking  
And I will never drink alone  
Yes I will go on drinking... my world keeps on sinking  
I will never drink alone...
