

## Pig Iron

Anti-Nowhere League

I have no fear...the new age is here

Plastic age...road rage

We got videos, stereos, radios and telephones

Nubile contractors, nuclear reactors

Sex scenes in magazines, laser beams

And war machines

I have no fear, the new age is here...Pig Iron

Technology, it's all just shit to me...Pig Iron

Satellites and motorbikes

We got smog counts and head counts

Silicon chips and breakdowns

Virtual reality is breeding insanity

Fuck this rat race...shoot me off

Into cyberspace

I have no fear, the new age is here...Pig Iron

Technology, it's all just shit to me...Pig Iron

Don't touch me...

I'm dirty...

Don't push me...

I'm evil...

Listen...

Test tube families

We got ecstasy, heroin, crack, cocaine, amphetamine

Sniff it up, jack it up, blow your fucking brains out

We got Star Wars, race wars, HIV and BSE

I have no fear, the new age is here...Pig Iron

Let's fire up the oven, we'll burn the atmosphere

I have no fear, the new age is here...Pig Iron
