

See How They Run

Anti-Pasti

See how they run
With their backs
Against the wall
They'll never escape
Known by the law

They must not live
This life of crime
They've got
They need help
They must have forgot

See how they run (run)
See how they run (run)
See how they run (run)
See how they run (run)

See how they run
With their dreams
Of freedom
They'll never escape
Without achievement

Nothing will happend
If they gave in
But it's too late
For most of them

See how they run (run)
See how they run (run)
See how they run (run)
See how they run (run)

I've heard it said
That england's
Roads is bliss
Useless actions
And waisted breath

No thoughts for others
And no regrets
Empty lives
Just silhouettes

See how they run (run)
See how they run (run)
See how they run (run)
See how they run (run)
