See How They Run

See how they run With their backs Against the wall They'll never escape Known by the law They must not live This life of crime They've got They need help They must have forgot See how they run (run) See how they run With their dreams Of freedom They'll never escape Without achievement Nothing will happend If they gave in But it's too late For most of them See how they run (run) I've heard it said That england's Roads is bliss Useless actions And waisted breath No thoughts for others And no regrets Empty lives Just silhouettes

See how they run (run) See how they run (run) See how they run (run) See how they run (run)
