

Brainwashed

Anti-System

Since the age of understanding I've been told that God will for
give my sins if I go to church
And if I was a good little boy I could have an extra helping of
beef on my sunday meal
And at school they brainwashed me to believe that God is everyw
here ready to serve me in times of hardship
But if this was true there wouldn't be such things as starving
children in the Third World
And there wouldn't be wars being fought in foreign countries at
this moment
And there wouldn't be such things as class, hate, disease, maln
utrition, rape, violence and murder
