

Fire Follow Me

Anti Tank Nun

I'll never change my fierce ways
Though I do land face down in sand
And many mates already play
Komodo varans' infernal band

They will let you fly and get much higher
Gonna use force to pull you down
And you will dive in a sea of fire

And in my home I have a shrine
Relics of rock in it hide
I take their power and make it mine
Fancy a walk on the wild side?

They will let you fly and get much higher
Gonna use force to pull you down
And you will dive in a sea of fire

Though my affairs have all been fair
Some tell me this straight in the eye:
'Your eyes have caused so much despair
Stop tempting me, devil's ally!'

They will let you fly and get much higher
Gonna use force to pull you down
And you will dive, will dive, will dive
In a sea of fire
