Die At War

Antidote

We've seen the runaround, who needs it anymore?
You've labelled us the clowns, the fools to die at war

To die at war, die at war
Is this all we're living for?

I've never had to fight
What makes you think you're right
All the blacks and all the whites
Ought to jump on you tonight

You tonight, you tonight
Ought to jump on you tonight
