Get Up When You Fall

Antidote

Once again your life got turned upside down
All your securities came tumbling down
Betrayed and abandoned they are fucking with you
Lady Fortune took a rain check on you

What's the plan what the fuck can you do
Are you going to let all this happen to you
There is an alternative you are in control
Take back your life get up when you fall

This has happened too many times before
Each time you say you can't take it no more
Learn from the past you are in control
Take back your life get up when you fall
