

## My Government Is a Farce

Antidote

I voted for a better future  
But now it's getting clear  
If i wanna see things change  
I've got to wait at least 4 years

Now clowns rule our country  
And it isn't fun for you and me  
This is not democracy  
But it's the best soap on tv

No talk in terms of solutions  
It's just a media blitz  
I never voted for a government  
That only cares about the rich
