

## Nothing Has Changed

Antidote

I remember clearly when we started out  
10 years on in time and it hasn't worn out  
We like what we do and to that we stay true  
And if you think we changed you misunderstood

'You do nothing new', we heard that from the start  
But everything we say and do comes straight from the heart  
Sure we have grown older but still we're untamed  
And I am quite sure next year nothing has changed

Exploring opportunities, meeting people new  
Coming up with new tunes, drinking local brew  
Over the years friendships grew tight  
Meet us in 10 years and nothing has changed!
