

## One Way or the Other Way

Antidote

One way or the other way  
Don't give a fuck what people say  
One way or the other way  
Will we choose or will we follow  
Is it they decide we swallow

The way you go to school get a job  
The way I dropped out I'm out of luck  
Your life lived in security  
Our lives the way we want them to be
