

The Aggressor Within

Antidote

Hate chains with the greed of our race
Starvation, misery and warfull days
Man eating man, race loosing it's face
Despicable attempts to save our place
Enough death, enough sorrow
How can we face the world tomorrow?
Open your fists and try to see it
Today we have a hall to deal with

The aggressor within

Turn the words into the deeds
Religion's a whore, far from peace
Preacher's preaching in satans leash
Money and perversion in a holy feast
Enough death, enough sorrow
How can we face the world tomorrow?
Love and understanding out of balance
Outnumbered dominators dealing pain

The aggressor within

"Living is a one crime thing
Heavy foot crushing our heads in
Dominators dominate the dominating
We're the one, the aggressor within"
