

Zero Mentality

Antidote

You think you're just a nut, you don't know what's up
But soon you're gonna learn it's all just a game
Confused in the heart, what a crummy start
It's all just a game all just a game
I'd like to introduce you to yourself
And I'm overly concerned, you're falling apart
Oh, there is a way to see things clearly today
With zero mentality
The world's in a rut, who knows which way to go
But all I know is it's not our mistake
