

## Hurts To Hurt

Antifreeze

If I could find the right girl  
Possibilities are all I see  
I think I could be happy  
Normal  
But I know that's just not me  
Am I just too picky?  
Will my life just pass me by?  
Maybe I'm just unlucky  
It feels so worthless to even try

So long, goodbye  
It always hurts to hear you cry  
That's why

I was supposed to hurt you  
Hurts as much as you do  
Hurts to be hurt by you  
Wish I never met you  
Hurts to not have someone  
Never hurt to have some fun  
Hurts to not have met you (2x)

I'm always looking for someone  
But I find another lonely night  
And when I stop to read  
The helpful road signs  
All they say is hurt left hurt right

And if we hook up  
With my luck, it will suck  
And if we never meet  
Who's to blame?  
Is it my fault?
