

## Data Overload

Antigama

What lies beneath the grass  
between the roots  
that are drenched

like meat that's been cut  
that smells of fear  
what lies beneath the grass  
when the sun dies out

data overload

the swarms of alien desires  
strangle your might  
desire that poisons  
the want that stuns

you must buy with blood  
of which you'll be out  
you must buy with blood  
that drips away every while

data overload
