Antimatter

We gather here in line
Creation in doubt
All heathens overthrown
Baptised and faithless
In thrall to nothing
We ingest our grace
Immaculately glow
Tranquillise the godless
A love synthetic

Rise off thy feet
Renew thy faith
Dissolve into the ocean again

We gather here in line
No longer devout
Old idols undersold
Dead eyed and prayerless
Devoid of heartbeat
We ascend our place
With radiance bestowed
Paradise from snakebite
Artificial glory

Rise off thy feet
Renew thy faith
Dissolve into the ocean
Rise off thy feet
Rejoice thy change
Dissolve into the ocean again

The architect of light
Appear unto I
The architect of
The architect of light
Appear unto I
The architect of

Breathe in, breathe out
Breathe in, breathe out
Breathe in, breathe out
Breathe in, breathe out
Breathe in, breathe out
Breathe in, breathe out
Breathe in, breathe out
Breathe in, breathe out
