Feel

Antimatter

I've feeling, I won't be coming down from this
I was searching through the heavens and somehow I slipped!

I feel, I'm seeing so clear

Trying to forget tomorrow and all that's happened
This is not the way, the way I was meant to be

I feel, I'm seeing so clear
I thought I was never going to die
I feel, I'm seeing so clear
We need more time

Slipping away, I think I'm gonna crack
Misplaced trust, loyalty stabbed in the gut

I feel, I'm seeing so clear
I thought I was never coming back

I've been down for awhile
And now I'm coming back...
