

# Integrity

Antimatter

The animals are out for all that they can get  
Put a light to the candle and the callers call to come collect  
See if you can make a stand for all that's straight and true  
When there's hands in the contents of all you stand to lose

Integrity, with colour and code we find harmony  
Integrity, we cover our soil with indemnity  
Integrity, what's the point if no-one else has any?

And it's spitting in my eye, every time it boils down to this  
And it's not the same, and they're not the same as me  
But it always seems to be that dog eats dog  
And that's the only rule  
And if you don't play, then you're really just a fool

Am I really just a fool?

Integrity, with colour and code we find harmony  
Integrity, we cover our soil with indemnity  
Integrity, what's the point if no-one else has any?  
Am I really just a fool?  
Really just a fool?  
Is real strength in untruth?  
Real strength in untruth?
