

## Line of Fire

Antimatter

Face the panic of today  
Breaking barriers of yesterday  
I fell into the line of fire  
I broke down in the line of fire

Shattered past, and future fears  
Take a moment far away from here  
Cut the strings and fly away  
Cut the strings and fly away

Taste the hell you put us through  
Grace the heavens I could promise you  
Take a hand in the line of fire  
Make a stand behind the wire
