

## No Contact

### Antimatter

Clones they seed together  
But I am one  
Cut from a different frame  
And I just can't sync up  
They fell off the production line  
Wired to replicate  
To recognise as one

And I can feel no contact  
I can feel no contact here  
I can feel no contact  
I can feel no contact here at all

Some may breed in heaven  
But bleeding hearts  
Well they think this might be hell  
And there's no ebb and flow  
Where you walk, you may never  
Set a foot before yourself  
It's just another road to bear

And I can feel no contact  
I can feel no contact here  
I can feel no contact  
I can feel no contact here at all

I can feel no contact

All hear the mother sirens roar  
As another infantry is born  
But everything I love is here  
So I cant leave

And I can feel no contact  
I can feel no contact here  
I can feel no contact  
I can feel no contact here at all

Grace will flee  
Lies will seed  
Lost at sea  
As laws entwine
