

## Stick Shift

Antoine Clamaran

I want your stick shift I want your stick shift I want your stick shift I want your stick shift

You're my red Ferrari, I got this crazy feeling Like I had 10 martinis, and I'm drunk driving freely All the stilling, you look so damn appealing Right now I'm revealing, I want what you've been dealing

My heart's here switching lanes My mind is so delusional I'm going insane I only hope we're on the same page Cause I'm hot growing road rage

I want your stick shift, I want you overdrive I think you're so sick, I wanna ride all night What you want and what you like You're what I want, what I like You're a dream come to life I'm speeding

I want your stick shift, I want you overdrive I think you're so sick, I wanna ride all night What you want and what you like You're what I want, what I like You're a dream come to life I'm speeding

So much to stop the fuss, I'm so on top with you I'm not that in your fumes, like cologne or perfume I want you to make this move I got nothing to lose but so much to prove Do you feel me?

My heart's here switching lanes My mind is so delusional I'm going insane I only hope we're on the same page Cos I'm hot growing road rage

I want your stick shift, I want you overdrive I think you're so sick, I wanna ride all night What you want and what you like You're what I want, what I like You're a dream come to life I'm speeding

I want your stick shift, I want you overdrive I think you're so sick, I wanna ride all night What you want and what you like You're what I want, what I like You're a dream come to life I'm speeding

My heart, my mind, my body I'm speeding for you (I got it, got it) Like we're in a Ferrari I'm speeding for you (I got it, got it) My heart, my mind, my body I'm speeding for you (I got it, got it) Like we're in a Ferrari I'm speeding for you (I got it, got it)

What you want and what you like What I want, what I like You're a dream come to life I'm speeding What you want and what you like

ike What I want, what I like You're a dream come to life I'm speeding
