

## Crew Love

AntsLive

Who took that dub it must be we  
Took that L it must be you  
If you spent one day in my shoe  
You'll see how a hustler move  
I feel like Jake on the weekend  
We go outside they loving the crew  
I live like a rockstar  
Jump off the plane went straight to the booth

Another weekend feel like Monday  
I just step on a brand new runway  
I don't even check my calendar  
Tell my manager give me the update  
I clear up my mental headspace  
French but she don't speak Anglais  
So I'm flirting with Google Translate  
This motion don't define who I am as a man  
Your facecard getting you way too gassed and it's sad  
Baby please don't give me no grief  
I still make bread when I sleep  
I still like head when I jeet  
I'm outside stepping discreet  
I'm outside looking bummy trust me  
I feel like a catfish  
I spent 10 years trying to get this coin in  
And now the money just backflip  
Ayy you better watch your actions  
'Cause your actions turn into habits  
You better watch your bredrin  
When you get bread and they turn to savage  
(When you get bread and they start going mad)

Who took that dub it must be we  
Took that L it must be you  
If you spent one day in my shoe  
You'll see how a hustler move  
I feel like Jake on the weekend  
We go outside they loving the crew  
I live like a rockstar  
Jump off the plane went straight to the booth
