

(RELYT)

I've been doing my thing since way back when, I never begged friend, motherf
uckers never loved us
Now I head from the ends to the booth and back trying to make the music run
up
I get love from all over, if you see me in the mains, baby, go holler
Never been shy to guala
Never been a window shopper
Always had a bop in my step in a Nike crepe with the bean on a five-a-
side, I've been skilling
Young buck with gold chain swinging
Heartbreak kid with the women
Look
Didn't matter that football never worked out 'cause I kept working on the vi
sion
Now my cell rings off like I'm flinging the grub, bro, I really got the hotl
ine blinging

Bro, I really got the whole scene shaking and stirred up like 007
Bro said, "Stay elegant stepping", so we stay elegant stepping
Every day, gotta count these blessings
If I take Ls, gotta turn them lessons
I need me- I need me- I need me a DB9 with the black and red stripe like Den
nis the Menace
Said, "I make music, love, you know, the rap stuff like Santan does"
When I rap, real shit, no cap, and the beat gotta slap like a backhand does
I've been way too deep in my bag like coins at the bottom of the bag and stu
ff
And she ain't really like rap too tough, but I'm way too smooth on the beat,
it's nuts

I've been doing my thing since way back when, I never begged friend, motherf
uckers never loved us

They say "Ants, why you rap so cruddy, but your tunes don't even talk 'bout
violence?"
'Cause I don't do road and I don't do trap, I just put trust in God's timing
I don't know nothing 'bout horoscopes, but I can see stars aligning
And when I shout myself out, that's the best cosigning
Used to rock G-
Shocks with the Air Force fresh out the box, no crease, no stain on it
Now I got a little money on me, so if she want Louis, I just might pay for i

t

If I see what I want, I'm taking it
I'm new to the game, still claiming it
Baby girl from Westlip, blessing her body type, just ain't no mistaking it

I've been doing my thing since way back when, I never begged friend, motherf
