

## Prom Queen

AntsLive

Why I  
Ain't got no time  
In my whole life  
Side-eye 'cause we don't connect like it's WiFi  
Sci-fi scary movie, this a fright night  
Left lung, I keep her close by on my right side  
Baby  
I got big plans, don't forget me  
Lately, I been booting off like it's Jet Li  
Late night, take it all off, very sexy  
I call her my prom queen, she call me her bestie

Don't message me then unsend that  
I don't care who been before me  
Just don't pop up again, you'll regret that  
She move like Sherlock Holmes  
Preeing my Insta story, asking who's that girl in the red dress  
Bare trust issues, I can't address that  
It's hardly a minor setback if I drop that and it don't connect  
'Cause the way that I got tracks loaded, I fly a next then they all forget  
I think it's peace man found  
I hope that mean I'm chilling if I ain't millions in my account  
If I ain't got foreigners parked out my house  
No Yeezy slides, man sliding  
If you're on the team, we're riding  
If you got a plan, I'll line it  
I made all these P's off rhyming  
I don't play like action figure  
It's all day, man stack this figure  
Back then, it was drink spiller, brown liquor  
Now all the raps are realer  
Give her the good good like a bae-cay or a prom night  
She give me the good good, I was tweaking, I was cross-eyed  
Dem man ain't on me  
Dese man just offside  
Give me the microphone, I'ma fry it like it's Popeyes
