

# Andromeda Unchained

Anubis Gate

Moving in to possess  
The kingdom of long ago  
Perfect host for our dream

Run, boy, run  
And eat your way through  
To the heart of mainframe stream  
Turn off and let us in

This is the beginning  
Great improvement to your empty world  
Can't help laughing

It's a sinister display  
Of disorder and decay  
You've been taken in and restrained  
Andromeda unchained

We were outcast from the stars  
Soldiers of a different time  
Separating the structure from within

Forged ahead  
We face the door to control  
The lives of those  
Who so cruelly turned against us

This is the beginning  
Great improvement to your empty world  
Repossessing

It's a sinister display  
Of disorder and decay  
You've been taken in and restrained  
Andromeda unchained

You chained the stars to your advantage  
(And) standardized our minds  
A make-believe world of order  
Exposure's due, supernova!  
Your reign is over

This is the beginning  
Great improvement to your empty world  
Reconstructing

This elaborate display  
Of disorder and decay  
You've been taken in and restrained  
Andromeda unchained
