

## Charismatic S.O.B.

Anuheia

What's the use now what's the use  
What's the use anyway

Well I see you  
You walkin'  
Down the street and I say hello  
(Hello)  
But you're sayin' hi to everyone out there  
So why should I care

I'm a miniscule addition  
To your glorified existence  
(You're forty feet tall and I'm less than insignificant)  
I need my presence felt and what am I to do  
When everyone's feelin' me but you

(I've fallen in love)  
With the charismatic S.O.B  
(You been fuelin' my flame)  
Unintentionally  
My fire is burnin'  
But there's no one to stand in the glow  
What's the use

(What's the use man what's the use)  
What's the use today  
What's the use man what's the use  
What's the use anyway

How to get you to look at me more than just lips tits and ass  
And see through to me  
Deeper as a part of your past  
(That resonates in your mind as a time)  
You shoulda seen that what you coulda had  
Was nothin' short of amazing  
(Nothin' short of amazing)  
(Nothin' short of amazing)  
Don't think you can play me you're the one losin' bait

(I've fallen in love)  
With the charismatic S.O.B  
(You've been fuelin' my flame)  
And you don't even know me  
My fire is burnin'  
But there's no one to stand in the glow  
What's the use

Now I've fallen in lust again  
Here you come  
Kissin' cheeks  
Shakin' hands  
You need to climb off your pedestal boy  
No offense but your games aren't that good

I'm a miniscule addition  
To your glorified existence  
(You're forty feet tall and I'm less than insignificant)

I need my presence felt and what am I to do  
When everyone's feelin' me but you

(I've fallen in love)  
With the charismatic S.O.B  
(You've been fuelin' my flame)  
And I'm drownin' in your sea  
My fire is burnin'  
But there's no one to stand in the glow  
What's the use

(What's the use man what's the use)  
What's the use yeah  
(What's the use man what's the use)  
What's the use  
What's the use anyway

(What's the use man what's the use)  
Oh hey  
(What's the use man what's the use)  
Oh oh yeah
