

Galaxy

Anuhea

Sometimes this life can get so hard
Just need to release it all
Know that you feeling the same way too, ooh
So let's take a trip, just me and you
Just me and you

A place where we can be
Our own true selves you see
A place away from all the judging eyes
Up in the stars we'll be
A true sanctuary
Boy, I wanna take you high

Yeah, it's lift off time
We unwind in the sky
It's our galaxy, yeah
Our galaxy, yeah
Climb aboard with me
We have a place to be
In our galaxy, yeah
Our galaxy, yeah
Another time and space
A little private place
To take a break from
From reality, yeah
So pour the wine
It's me and you tonight
In our galaxy, yeah
Our galaxy, yeah

I just wanna live 'cause we only get one of them
Just wanna live, hey
Enjoying my time on this planet to the fullest, hey
Up in the Milky Way
But there's too much of this pressure, it's taking me under
Somebody get me out of here, oh

A place where we can be
Our own true selves you see
A place away from all the judging eyes
Up in the stars we'll be
A true sanctuary
Boy, I wanna take you high

Yeah, it's lift off time
We unwind in the sky
It's our galaxy, yeah
Our galaxy, yeah
Climb aboard with me
We have a place to be
In our galaxy, yeah
Our galaxy, yeah
Another time and space
A little private place
To take a break from
From reality, yeah
So pour the wine

It's me and you tonight
In our galaxy, yeah
Our galaxy, yeah

There's always a risk
With the fire you take, okay, okay
Reckless love can never last
No matter how hard you pray

I wanna escape to
A place away from judging eyes
No one else gets it
We'll make our own rules tonight

It's lift off time
We unwind in the sky
It's our galaxy
Our galaxy, yeah
Climb aboard with me
We have a place to be
In our galaxy, yeah
Our galaxy, yeah
Another time and space
A little private place
To take a break from
From reality, yeah
So pour the wine
It's me and you tonight
In our galaxy
Our galaxy, yeah
