

# Hands Up

Anuheia

Do you ever take the time  
To look up to the sky  
And reflect upon your life?  
My friend make no mistake  
There's a chance with every breath we take  
That it could be gone by tonight

Everybody's feeling high on love  
'Cause we're looking higher love  
We can find it one by one, let's unite

Put your hands up, hands up, on your feet  
Let's stand up, stand up, come on people  
Gotta come together, celebrate  
'Cause these are moments that we live for

Hands up, hands up, on your feet  
Let's stand up, stand up, come on people  
Gotta come together, celebrate  
'Cause these are moments that we live for

Let's stop complaining  
Sitting around and waiting  
What you give is what you get  
'Cause with a better attitude  
Amazing things will come to you  
Just live your life with no regrets

Everybody's feeling high on love  
'Cause we're looking higher love  
We can find it one by one, let's unite

Everybody put your hands up, hands up, on your feet  
Let's stand up, stand up, come on people  
Gotta come together, celebrate  
'Cause these are moments that we live for

Hands up, hands up, on your feet  
Let's stand up, stand up, come on people  
Gotta come together, celebrate  
'Cause these are moments that we live for

We'll rise above  
Get over little things  
You're gonna have to learn to fly  
And mend those broken wings  
It could all be gone tomorrow  
So live like it's your very last day

Come on!

Everybody put your hands up, hands up, on your feet  
Let's stand up, stand up, come on people  
Gotta come together, celebrate  
'Cause these are moments that we live for

Hands up, hands up, on your feet

Let's stand up, stand up, come on people  
Gotta come together, celebrate  
'Cause these are moments that we live for

Hands up, hands up, on your feet  
Let's stand up, stand up, come on people  
Gotta come together, celebrate  
'Cause these are moments that we live for

Hands up, hands up, on your feet  
Let's stand up, stand up, come on people  
Gotta come together, celebrate  
'Cause these are the moments that we live for
