

# Island Inside Me

Anuheia

Looking to the sun for energy  
Looking to the moon to put me back to sleep  
Working hard day after day wondering  
Thinking out loud "is there something more to see?"

Day by day by dollar by day  
I'm pinching all my pennies just to find an escape  
White sands blue sea palm trees and breeze  
I'm not quite there but I can feel in me

Hey... It's 20 below but I'm warm you know  
Hey... Clear skies above even if there's snow  
Hey... Dreams come true and I can promise you  
Everywhere I go in everything I see  
You're helping me to find the Island Inside Me  
La da.. da da da

Here in the islands and its everything I dreamed  
Sitting on this slow boat here on top the crystal sea  
The moon creates dancing lights on the water top tonight  
Your love of life shines so bright

White sands blue sea palm trees and breeze

I see it all around and I can feel in me

Hey... It might be 20 below but I'm warm you know  
Hey... Clear skies above even if there's snow  
Hey... Dreams come true and I can promise you  
Everywhere I go in everything I see  
You're helping me find the Island Inside Me  
La da.. da da da

Party's over, back on the grind  
Sitting all alone only to find  
The island has always been inside

Hey... We might be gone but let's sing the song  
Hey... Our love will always keep us warm  
Hey... My dreams came true and I can promise you  
Everywhere we go in everything we see  
I'll always find the island inside me  
La da.. da da da

Play all day, jam all night  
Twinkling stars are dancing lights  
Your beautiful smile keeps shining bright  
You're peaceful soul is my paradise
