

We Make It Look Easy

Anuheia

When the air's gone cold
And the temperature's rising
We slip and fall
But we never stop trying
It's a walk in the dark
So let's hold on tighter
Take the jump and baby we're flying

Oh-oh, can you feel it?
Whoa-oh, can you feel it?

We're not perfect
But it's a beautiful thing
More than worth it
To keep on making you mine
And a second with you
Is a hell of a ride
Slow down and swallow our pride
To make it look easy, easy, eh

It makes me smile
When the people keep talking
Let me hold it together
When trouble comes knocking
It's not a walk on a beach
Tryna love you right
But it's alright, alright
With you by my side

We're not perfect
But it's a beautiful thing
More than worth it
To keep on making you mine
And a second with you
Is a hell of a ride
Slow down and swallow our pride
To make it look easy, eh
To make it look easy, easy, eh
To make it look easy, eh
To make it look easy, easy, eh, oh

(Ooh, ooh) Ah-ah
(Ooh, ooh) (Temperature's rising)
(Ooh, ooh) Can you feel it?
(Ooh, ooh) (We never stop trying)
(Ooh, ooh) Can you feel it? Oh
(Ooh, ooh) (Temperature's rising)
Can you feel it?

We're not perfect, no
But it's a beautiful thing
More than worth it
To keep on making you mine
And a second with you
Is a hell of a ride
Slow down and swallow our pride
To make it look easy, ooh-ooh

To make it look easy, easy, eh, oh
To make it look easy, ooh
To make it look easy, easy, eh, yeah

Slipping far but we never stop trying
