

Black Smoke

Anvil

Where there's smoke you go
All you need to know
Fire's on your track

There is no going back
Adrenalin to rise
There'll be no compromise
You are in the driver's seat
Victory could be so sweet
Flames to defeat

Black smoke
Hot wire
Black smoke
Red fire
Energy is on your side
Take it in your stride

Temperature and heat is high
Blackened smoke into the sky

Have the power and the will
Now you're in for the kill
Drown the flames of doubt
What it's all about
Let the demons out

Black smoke
Hot wire
Black smoke
Red fire

Choke the air and kill the flame
Be the cause, be the blame
Lion to tame

Overcoming fear
The meaning is so clear

Fight the fight so you can win
The time is now to begin

Beat the dragon, use the sword
There's no options to explore
You are in the driver's seat
Victory could be so sweet
Flames to defeat

Black smoke
Hot wire
Black smoke
Red fire

Black smoke
Hot wire
Black smoke
Red fire
